SUMMARY ANALYSIS

REMOTE VIEWING (RV) SESSION D-63

1. (S/NOFORN) This report documents a remote viewing session conducted in compliance with a request for information on a target of interest to USI. The purpose of this session was to provide information on the target of interest.
2. (S/NOFORN) The protocol used for this session is detailed in the document, Grill Flame Protocol, AMSAA Applied Remote Viewing Protocol (S), undated.
3. (S/NOFORN) At TAB A is a summary of the data presented by the remote viewer during the session. A complete transcript of the session is available upon request. At TAB/B is target cuing information provided the remote viewer.
4. (S/NOFORN) The summary at TAB A represents the salient points provided by the remote viewer and as such has not been subjected to any intermediate analysis, evaluation or collation. Interpretation and use of the information provided is the responsibility of the requestor.
5. (S/NOFORN) The project analyst who monitored the session felt that the data provided was of little value. He felt no transcript was necessary at this time.

SUBJECT: Unconfirmed Source Information Provided for/and Pertaining to
Project 8020 (D-63)

(U) The following information applies:

(S//NOFORN)a. Source described entrance of building as having two very large glass doors with inset work on frame, large, false pillars on both sides, and a large circular or oval opening over the doors.

(S//NOFORN)b. Source stated that to his left, from the entrance, that he saw a building which looked like a warehouse with a long porch or loading dock.

(S//NOFORN)c. Source stated that inside the entrance was a dark gray or black marble floor, seats on the right, seats on the left, a box-type area with a shelf at the end, and two swinging doors straight ahead.

(S//NOFORN)d. Source stated that beyond the swinging doors was a T-shaped intersection with a corridor going out to the left and to the right. Source also mentioned seeing elevators.
